NEOCON 2023

JUNE 12, 2023 – PONTE VIDEO CONFERENCE + BROOKLYN HEIGHT ADJUSTABLE COMMUNITY + RETRO PYRAMID COFFEE TABLE

NEOCON 2023 was highlighted by the largest table ever displayed in our Chicago showroom – a 20', Rose Gold painted back glass tabletop, horseshoe shaped Ponte video conferencing table. Ponte is an expanding portfolio of uniquely shaped, high capacity, customized, large table applications. Brooklyn height adjustable (30"-42" H) is a first-in-category, push button, height adjustable panel community table. This featured table was powered by a re-chargeable battery – so no infeed necessary! No core drills required! Pyramid, a Prismatic 1980's design, was re-introduced as a homage to our coffee table past – the eye catching geometric, stacked aluminum rail design was displayed with a Gilded Antique Bronze base finish – and is also available in a wood veneer rail base finish.

JUNE 13, 2022 – STAXX TABLE BASE + FACET DRUM/GILDED COLOR ALLUMINIO + CONSOLE CREDENZA

Featured up front at NEOCON 2022, the Staxx racetrack conference table included a striking book matched Compaq Unique Calcatta Black tabletop. The Staxx base is a trio of multi-diameter columns offering unlimited color combinations and can include an access door on the largest column. A small 42”D Staxx table with clear glass top was also displayed to illustrate the range of this new base. A 90”D painted back glass tabletop introduced the beauty of our latest Gilded color – Alluminio – an illuminative acrylic silver finish option complemented by a facet detail on the polished stainless steel Drum base. Storage cabinets were shown in both all black high gloss finish with drawer inserts for organizing cutlery and dishes and a black & white color combination with high/low sheen level drawer fronts and a minimal 13” space saving depth. Engaged was featured again but this time in community table and touchdown table configurations for open plan, casual meeting spaces. Spire completed the showroom floor plan with a dramatic diamond inlay veneer pattern 42”D top with Gilded base finish, IT apron and access door.
